

## PROMISES ATLANTA

**Promises Atlanta** is a primary substance use disorder and primary mental health treatment center in Dacula, Georgia. Our focus is on fostering long-term, sustainable recovery and improving overall quality of life.

We are a trauma-informed, skills-driven, and family-focused organization that utilizes measured-based care to enhance our treatment and improve our patients' outcomes.

**A PLACE TO HEAL, A PATH TO THRIVE.**

"I'm eternally grateful for the exceptional care and support I received at **Promises**. The alumni program has provided invaluable ongoing support and community, enabling me to maintain my progress and connect with fellow alumni. I extend my sincerest gratitude to the entire team at Promises for providing me with the tools, confidence, and support system necessary for a successful and fulfilling life in recovery. I highly recommend Promises. This was the best decision I've ever made."

## OUR CURRICULUM:

- Our **“Recognize, Regulate, and Respond”** philosophy creates a consistent, repeatable recovery experience at each level of care, ensuring a continuous and effective path toward healing.
- Our staff is trained to understand the impact of trauma and foster connections with clients during difficult moments. From that place of connection, we can create an environment for rebuilding lives.
- Our skills-driven curriculum integrates brain-based research and evidence-based practices like DBT, ACT, and Positive Psychology to address how neural processes impact emotional regulation.

- We recognize the importance of connection and family support, which is why we engage families within the first 24 hours of treatment and throughout the treatment stay.

## OUR PROGRAMMING:

- Safe, medically monitored detox with 24/7 medical staff
- Our on-site medical provider and psychiatric professionals help support all aspects of mental and physical well-being
- Masters-level clinicians supporting clients with individual and group therapy work
- Nutrition support services to foster healthier eating habits and promote balanced wellness

- Yoga and gym spaces to help clients manage stress, enhance emotional regulation, and promote mental clarity
- Expressive therapies, such as art, music, and movement, help clients enhance body awareness and deepen the connection between mind and body
- 12-step and 12-step alternative programs
- Most commercial insurance accepted
